

Ahmed Ali

Software Engineer | Web Developer

Riyadh, Saudi Arabia | itsahmed1o9@gmail.com

Objective

Junior software engineer with a passion for web & mobile development, frontend development and technologies such as AI. Having a Bachelor's Dual-Degree in Software Engineering, I'm very familiar with developing software including web and mobile applications. As a team-oriented, organized, and hardworking developer, I always tend to do well and be highly adaptable in team environments. Very adept regarding documentation, setting requirements, meeting deadlines, general communication, and implementing multiple technologies/concepts like blockchain, neural networks, Internet of Things, and such.

Skills

- **Frontend Development:** React, Flutter, HTML & CSS, JavaScript, TypeScript, TailwindCSS.
- **Backend Development:** Python, SQL, C#, C++, Java.
- **Others:** Kotlin, Firebase, AWS, Git, MS SQL, Figma, Android Studio.
- **Academic Coursework:** Data Structures, Artificial Intelligence, Mobile App Development, Algorithms, Design Patterns, Advanced Databases, Software Architecture.
- **Soft Skills:** Team-oriented, Results-driven, Organized, Adaptive, Communicative.

Experiences

- Frontend Developer Riyadh, Saudi Arabia
Sustainable Star LLC 06/2024 – 08/2024
 - Primarily worked with technologies like **React**, **Typescript**, **Tailwind** and **Redux** to develop front-end portions of various web-based projects.
 - Established multiple connections with backend APIs with the help of tools like **Postman**.
 - Utilized platforms like **Jira**, **GitLab**, **Figma** and more to communicate and collaborate with various team members and operate within an **agile development environment**.

- Information Technology Intern Kuala Lumpur, Malaysia
Teczo Sdn. Bhd. 01/2022 – 05/2022
 - Primarily worked in backend development by connecting applications to services such as **Firebase** and **AWS Amplify**, in addition to managing other APIs.
 - Involved in the prototyping and development of web & mobile applications, mostly through **Dart & Flutter SDK**, alongside **Java**.
 - Contributed to project planning & software UI/UX design through design tools such as **Figma**.
 - Designed and implemented a personalized **AI chatbot** within a hospital's mobile application to better guide/manage patients.

Certifications

- Responsive Web Design 2023
freeCodeCamp
- Foundational C# with Microsoft 2023
freeCodeCamp | Microsoft

Education

- Bachelor's Dual-Degree in Software Engineering 2020 - 2023
Asia Pacific University, Malaysia | De Montfort University, United Kingdom
- Foundation Degree in Science & Technology 2019 - 2020
Sunway College, Malaysia

Languages

English – Native or Bilingual Proficiency

Arabic – Native or Bilingual Proficiency
