Experiences

- Frontend Developer — Riyadh, Saudi Arabia
  Sustainable Star LLC — 06/2024 – 08/2024 (3 Months)
  - Developed responsive and interactive web applications using **React** and **TypeScript**.
  - Improved upon existing applications to serve a more modern and user-friendly UI/UX, raising user satisfaction.
  - Optimized app performances, reducing some load times by 20% through state management with **Redux**.
  - Managed several backend APIs through the help of collaboration tools like **Postman**.
  - Collaborated regularly with a team of diverse talents using tools like **Jira** and **Slack**.

- Information Technology Intern   Kuala Lumpur, Malaysia
  Teczo Sdn. Bhd.   01/2022 − 05/2022 (5 Months)
  – Integrated backend services like **Firebase** and **AWS Amplify** for seamless API communication & functionality.
  – Built various cross-platform applications using **Dart**, **Flutter**, and **Java**, delivering both performance and responsiveness within web & mobile solutions.
  – Enhanced UI/UX workflows by creating prototypes and designs with **Figma**.
  – Developed an AI chatbot for a hospitalization app, greatly improving patient guidance and management.

Certifications

- Responsive Web Design   2023
  freeCodeCamp
- Foundational C# with Microsoft   2023
  freeCodeCamp | Microsoft

Education

- Bachelor's <u>Dual-Degree</u> in Software Engineering   2020 - 2023
  Asia Pacific University, Malaysia | De Montfort University, United Kingdom
- Foundation Degree in Science & Technology   2019 - 2020
  Sunway College, Malaysia

Languages

English − Native or Bilingual Proficiency   **Arabic** − Native or Bilingual Proficiency
